

Get to Know Safe Systems

The best business and home security since 1982

Safe Systems is the western operation of one of the largest privately owned security companies in the nation, Alarm Detection Systems, Inc. (ADS). With multiple locations throughout Colorado, Safe Systems protects over ten thousand customers. Our company is a trusted member of the NetOne professional association. While the technology in the industry has changed, Safe Systems' commitment to offering value and service to customers has not. We provide state-of-the-art alarm system installation, monitoring, and related testing services.

Our Business:

- Continues to have a strong local tradition
- Employs over 85 qualified professionals
- Offers same day/next day service
- Utilizes a fleet of over 25 vehicles to conduct day-to-day activities
- Operates an award-winning, Five-Diamond Central Monitoring Station, that meets UL/ FM 2050 Standards for closed rooms and SCIFs
- Owns and operates a proprietary AES wireless mesh network
- Offers unsurpassed customer service and support
