

Introducing the next evolution in home security. Control energy, lighting, door locks and more.

ULINK Home Automation from Safe Systems is a lifestyle-enhancing solution that extends the capabilities of your security system. Control your thermostats, lighting and locks with ULINK enabled devices — making your home more comfortable while reducing energy costs.

With ULINK Home Automation add-ons you can easily:

- Adjust thermostats automatically every time you set your alarm
- Turn select indoor and outdoor lights on or off when you access your system
- Lock and unlock your doors automatically
- Create and control lighting schedules while you are away

Home Automation add-ons are controlled by the same ULINK app that works with Safe Systems security systems

Thermostat

Lights

Exterior Door Locks

Choose smart phone* enabled security from Safe Systems and you can manage your home security environment from virtually anywhere.
