

## Experience Responsive Video Verification

Safe Systems is now offering rental packages for construction sites. These packages are not simply an alarm system but video verification of an actual intruder inside of your fenced area. The Videofied motion detectors and cameras capture a 10 second video clip of a security event which leads to immediate dispatch and priority response. Safe Systems' construction rental packages are the most cost effective way to protect your construction site, trailer, conex boxes and equipment.

### Construction Rental Packages feature:

- Wireless motion detectors and cameras
- Keypad and Keyfob
- Indoor and outdoor capabilities
- 24/7/365 full parts and repair coverage
- All cables, parts and labor

### Additional accessories available:
